CONVERSATIONS INVITING CHANGE

John Launer

GP and Family Therapist, Associate Dean for Faculty Development for Health Education England, Consultant in General Practice and Primary Care at the Tavistock Clinic, London

Following John Launer’s keynote presentation on “Conversations Inviting Change”, this workshop will help participants gain a broader understanding of the principles behind the model. They will learn how these can be applied to professional encounters with patients, colleagues and team members, and acquire some new questioning skills to manage challenging or ‘stuck’ conversations.
